Release Overview

Release Version	UltraBand 5.7.22
Release Date	Jan 31, 2020
Release Type	General Availability
Deliverables	- Upgrade Package to UltraBand 5.7.22 - Release Documentation (Release Notes)
Additional Information	Improvements since UltraBand 5.7.21 release: Defects - 1

Customer Defect(s)

JIRA ID	Zendesk ID	Description
PAUB-27805		Configuration apply caused crash

Fault Analysis Report

Configuration Apply Caused Crash

An unexpected application exit was noticed on a customer's grid. After inspecting the case in-depth, it was found that under a very rare circumstance there is an error condition when propagating the configuration into the entire system. The defect was immediately corrected and this condition (and others that could be similar) won't happen again.
